

# Kindergarten News

September 13, 2019

What a busy, fun couple of weeks we have had since our last correspondence! Your scholars continue to grow more comfortable in our classroom, and are doing an amazing job of being Allen Village students!

Explaining our drawings in our science notebooks that showed the concepts of **push** and **pull**.

We

talked about *Hispanic Heritage Month* in our primary Town Hall meeting this morning. We would love to have families come into our classroom to share stories, traditions, life experiences, or anything that you feel is important for others to know about the beautiful Hispanic culture.

**About Next Week:**

Our kindergarten students are beginning to learn how to engage and participate in curriculum **small groups**.

Students will be bringing **math** and **literacy** workbooks home soon to complete "homework" that reinforces our small group work.

Students will be engaged in **STAR testing** in math and literacy next week. Please ensure that your scholars get plenty of sleep each night!

**A Special Note:**

We have an Allen Village senior student serving as an intern in our classroom. You may hear your scholars talking about "Ms. Zadi." She will be in our classroom each morning until 10:45.

***Have a great week!***
