

ART ROOM NEWS !

January Edition

Welcome back to a new semester brimming with creativity, expression, and the vibrant world of art! As we embark on this artistic journey together, the high school art department is excited to share the latest updates, achievements, and upcoming events in the realm of visual arts.

Cupcake Painting spotlight

Miniam Olivari

As we reflect on the artistic wonders of the past semester, one project that we would like to showcase is the Cupcake Paintings from our Painting I classes.

Students transformed cupcake canvases into photorealistic wonders. Through the technique of color matching, each stroke became a carefully chosen hue, bringing these delectable treats to life on the canvas.

The magic of color matching was in full swing as students explored the subtleties of shadow and light, replicating the intricate details of frosting and sprinkles with astonishing accuracy. From the velvety richness of chocolate ganache to the delicate pastels of buttercream, the careful selection of colors allowed our artists to capture the essence of cupcakes in a truly lifelike manner.

FOUNDATIONS CLASS

Reflective Monkeys:

Shaping Shadows in Foundations

In our Foundations Art Class last semester, students embarked on a fascinating journey of light and shadow with a project that showcased their skills in value and reflection. The subject? Reflective monkeys, each rendered with a focus on creating a reflective surface that adds depth and realism to their drawings.
