

## **STUDENTS**

## **Policy 2115B**

### **Universal Screening and Early Dyslexia Identification**

Beginning in the 2018-19 school year and subsequent years, Allen Village LEA shall conduct dyslexia screenings for students in grades K-3 as recommended by the Missouri Legislative Task Force on Dyslexia under section 633.420. "Dyslexia screening" is a short test conducted by a teacher or school counselor to determine whether a student likely has dyslexia or a related disorder in which a positive result does not represent a medical diagnosis but indicates that the student could benefit from approved support.

The Allen Village school board and administration shall provide reasonable classroom support consistent with the findings and recommendations of the task force created under section 633.420. "Support" is low-cost and effective best practices, such as oral examinations and extended test-taking periods.

Allen Village LEA shall offer two hours of in-service training for all practicing teachers regarding dyslexia & related disorders.
